An effective approach for figuring out a price is to ship out a survey to your current customers. If these customers have already purchased an e book from you, ask for his or her opinion when it comes to price. Do that by creating a sales web page for the new book, however do not embody a value on that page. Instead, add quite a lot of links to survey questions that ask pointed questions to aid you in assigning a price to your ebook.

Another strategy is to test out prices by making a variety of duplicate gross sales pages with totally different costs on every page. Be certain that your gross sales copy is strictly the same on each page, and contains your selling-deal with sentence. Then work out for every page the conversion ratio between visitors to your web site and gross sales of your book. It will tell you what your optimum price is.

In the end, in case you've written a book that solves a problem or presents a new method, your e-book will bring in both site visitors and profits.
