An effective approach for figuring out a value is to send out a survey to your present customers. If these clients have already purchased an ebook from you, ask for his or her opinion when it comes to price. Do that by creating a gross sales web page for the brand new ebook, but do not embrace a price on that page. Another technique is to test out prices by making a number of duplicate sales pages with completely different costs on each page. Be sure your sales copy is exactly the similar on every page, and contains your selling-handle sentence. Then figure out for every web page the conversion ratio between visitors to your website and sales of your book. This may let you know what your optimum value is.
