However, if your book contains valuable ? and extra importantly NEW info, references, or techniques ? then you need to goal to cost it on the high end.

After you determine your objective, you must work out what your audience's need is on your ebook. For example, does your guide resolve a particular downside? If it does, and solves it in a approach that hasn't been written about in 100 different ebooks, you may be in a position to achieve high

gross sales at a high price. In case your e-book solves a problem or answers questions in a brand new and unique approach, you must price your e-book as excessive as you may go.
